3. Applying for a benefit (claims)

Click **Go To Claims** from the portal home (or **Claims** in the top nav) to reach the benefits picker. You'll see six benefit cards. Click **Apply** on the one you need:

6. Checking application status

Submitted	NIB has received your application. An officer will review it.
In Review	An NIB officer is currently working on your application.
Reupload Requested	NIB needs you to upload a clearer or different version of one of your documents. Action required from you: see section 7 .

Ready for Pickup (cards only)	Your new/renewed NIB card has been printed and is ready for collection at your local office.

The **My Claims** screen also has a separate **Saved Applications** section at the bottom listing any in-progress drafts. Each saved application has **Resume** and **Delete** buttons.

7. Responding to a reupload request

If an NIB officer reviews your application and finds a document that's unreadable, incomplete, or missing, they'll request a reupload. You'll receive an email letting you know.

How to respond:

- 1 Sign in to the portal.
- 2 Go to **My Claims** (for benefits) or **Card Applications** (for cards).
- 3 Find the application marked **Reupload Requested**.
- 4 Click into it. You'll see which specific document(s) need a new upload, and the reason the officer gave.
- 5 Click the **Upload** or **Replace** action next to that document.
- 6 Choose a new file from your device.
- 7 Confirm.

The officer is notified automatically. Your application returns to

In Review

No further action is needed unless they request another reupload.

Tip

The portal shows a banner / prompt on your applications list page so you don't miss the request. If you don't see it, check your email for the notification.

8. Common questions

My NIB number isn't being accepted at sign-in.

NIB numbers are typically 7–8 characters. Try entering yours in lowercase if upper case isn't working, the system normalizes case. If you still can't sign in, use **Forgot your password?** to verify the number-to-account mapping or call NIB Customer Service.

I registered but never got an activation email.

Check spam/junk first. Then go to the sign-in page and click **Resend activation email**. The portal will look up your NIB number and email you a fresh activation link.

I uploaded a document but it shows the wrong filename or isn't visible.

First refresh the page. If it's still missing, contact NIB Customer Service, there may be a banking-doc routing issue (a known historical bug; see internal incident notes if you're staff).

How do I know which documents are required for my claim?

Each claim type has a documents step that lists required documents before you can submit. If you're missing any, you can't proceed to submit. Save for later, gather your docs, then come back.

Can I edit a claim after submitting?

Once submitted, you can't edit. You can only respond to reupload requests from an officer. If you submitted incorrect information, contact NIB Customer Service.

My card application is taking a long time to approve. What's normal?

Card applications typically process within several business days. Status changes will trigger email notifications. If you've waited longer than two weeks without a status change, contact your local NIB office.

9. Need help?

Visit your nearest **NIB Local Office** for in-person help. Use the locations page on the public NIB website (nib-bahamas.com) for hours and addresses.

For password / sign-in issues that the self-service flows can't fix, **NIB Customer Service** can verify your identity and help recover access.
